EDUCATION

University of Colorado at Boulder, Boulder, Colorado, USA

- PhD. (in progress) – Ecology and Evolutionary Biology — Aug 20014 – Present

Advisers: Prof. Nolan Kane, and Prof. Nancy Emery

- Bachelor of Arts – Ecology and Evolutionary Biology — May 2008 – Dec 2012

Adviser: Prof. Andrew Martin

- Honors Thesis: Flea genetic diversity in Gunnison's Prairie Dog colonies and its implications for flea transmitted diseases

RESEARCH EXPERIENCE

University of Colorado at Boulder

- Professional Research Assistant, Ecology and Evolutionary Biology — Aug 2014 – Aug 2013

Supervisor: Prof. Nolan Kane

- Undergraduate Research Student, Ecology and Evolutionary Biology — May 2009 – Aug 2012

Supervisor: Prof. Andrew Martin

PUBLICATIONS

JOURNALS

[9] C Weiss-Lehman, S Tittes, NC Kane, R Hufbauer, BA Melbourne (2018) Riding the wave: genomic signatures of gene surfing and selection in experimental range expansions. *Philosophical Transactions of the Royal Society B* ***(in review)***

SKILLS

R, R Markdown, R Shiny, Bash, Python, Stan, Blast, Pandoc, LaTeX, Beamer, GitHub, Googling Stackoverflow.

AWARDS & SCHOLARSHIPS

- Ling-Ju Harn Fellowship 2014
  $18,000
- Undergraduate Research Opportunities Program 2010
  $1,000
- Edith Scates Memorial Scholarship 2008
  $1,000
- Lion's Club International Scholarship 2008
  $500

SOFTWARE

- R package: performr
  A probablistic Hierarchical Bayesian model to predict performance curves across multiple populations or taxa.
- R package: pomodoror
  A writing productivity application.

TEACHING

- Apple Genomics Fall 2018
  I designed and taught Apple Genomics as an upper-division undergraduate elective course focused on the assessment of genetic diversity and classification of Boulder county apples trees. Starting from leaf samples students learned DNA extraction and QC; the development of custom pipelines for DNA sequence alignment, genotyping, and calling variants; and the use of several software packages to assess population structure and genetic diversity. This project is ongoing and is now led by several of the student who were enrolled in the course.
- Population Genetics web applications Summer 2017
  I developed a series of R shiny based web applications used to teach undergraduate fundamental concepts in Population Genetics. These are free to use and available on GitHub.
